A WARM WELCOME

Stöckl im Park

Brewery and Restaurant

Surrounded by nature, yet in the heart of the city

We wish you many enjoyable hours with us and bon appétit.

The Welledits Family

S T Ö C K L P I L S

In 1842, a special bottom-fermented beer was brewed in Pilsen, then part of Austria. We have made it our mission to recreate this beer using the original triple-decoction mashing method. Much of what is sold as Pils today has little in common with the original from 1842. Close your eyes as you take your first sip and discover what beer tasted like back then.

S T Ö C K L M Ä R Z E N

In 1841, bottom-fermented lager beer was developed in Vienna and began its triumphal journey around the world. This reddish amber beer, brewed using decoction mashing, became a benchmark worldwide. We brew this speciality for our guests using the traditional double-decoction method.

W I E N E R H E L L E S 1 9 2 4

A classic bottom-fermented lager, exceptionally mild and easy-drinking – ideal for those who prefer less bitterness. Clean and fruity, brewed using double-decoction mashing – a beer for all generations.

S T Ö C K L W E I Z E N

This top-fermented Bavarian wheat beer is exceptional in Austria. While many wheat beers undergo shorter fermentation, our brewing team uses a traditional method and original yeast from a renowned Bavarian brewery.

B Ö H M I S C H G´ M I S C H T E S

For those who find dark beer a little too strong, this traditional Austrian speciality is ideal. Brewed with dark malt using the classic double-decoction method.

All our beers are unfiltered, naturally pure and unpasteurised!
